

OUTDOOR FURNITURE

ICONMODERN

ICONMODERN

The outdoors often played a vital role in allowing us to stay connected to our loved ones but also to our local communities during the pandemic. This need for connection to community is what inspired our custom outdoor furniture collection. Featuring a collaboration with fellow Chicago furniture maker, Zachary A. Design, the collection celebrates the vibrant Chicago maker community and pays homage to local craftsmanship.

Combining our signature wood and steel designs with Zachary A's unexpectedly light material blend of durable composites and powerful concrete, the collection exudes a neutral color palette that mimics its natural surroundings. Outdoor durability is mindfully weaved into each piece.

The collection brings people together through community, café and coffee tables, fire pit tables, and benches while our planters bring nature even closer for people to enjoy.

Additional Information

-Table tops can be fabricated using any of the wood species shown here

-All species are rot-resistant and will grey if exposed to outdoor conditions

-Minimum two coats of outdoor oil is hand-applied to all sides of each part if oil finish is chosen

-Hot rolled steel bases can be finished in matte, gloss and textured finishes

-Steel is sandblasted and primed prior to powdercoating

-Powdercoat is a sustainable and durable outdoor-appropriate finish

Zachary A Design

About

Zachary A. Design was formed by Zac Bitner with the idea of creating a modern material - blending durable composites with powerful concrete - to craft modern furniture in geometric & natural forms that are lighter in weight than traditional concrete or stone. Their guiding vision is to add function to art and to add the grace and meaning of art to the most humble functional objects.
