## INTRODUCING A MODERN PERSPECTIVE TO THE TRADITIONAL WOODEN BAR SEAT

The Cover Chair Series by Copenhagen-based designer Thomas Bentzen currently features an Armchair, Side Chair and Lounge Chair. Now, a new member is added to the series: The Cover Bar & Counter Stool.

With its curved backrest that folds elegantly around its back legs and ties the design together, the Cover Bar & Counter Stool challenges the possibilities of veneer through a forward-thinking approach, echoing the ideas of Scandinavian craftsmanship. Being lightweight in its form, the design features a tall, enveloping back for extensive comfort that allows its user to be seated for several hours, be it for a dinner, a drink or even for work at a counter desk.

The Cover Bar & Counter Stool is available in the colors Oak, Stained Dark Brown and Black alongside an Oak version with its seat upholstered in Cognac Refine Leather. All wooden elements across the variants are made with an environmentally-friendly water-based lacquer. Adding to that, the seat upholstery is configurable in a variety of leather and Kvadrat textiles as a made-to-order design, allowing for it to complement any spatial context.

## THOMAS BENTZEN ON THE DESIGN:

"The Cover Bar & Counter Stool sprung from a desire to bring a modern perspective to the traditional wooden bar seat. I wanted for it to have a crisp and contemporary expression through its light plywood material, paired with the solid and grounded sentiment of its frame and base in solid wood. With its tall and curved backrest that folds gently around the frame alongside the warmth of its wooden materiality, the Cover Bar & Counter Stool has the comfort required for people to be seated for hours on while translating the ideas of Scandinavian craftsmanship into a modern design language."
