Tote by Sebastian Herkner

As a result of the inaugural collaboration between Davis Furniture and Sebastian Herkner, Tote is a light-scale lounge chair designed to be used collectively or individually. Featuring a high degree of upholstered comfort, Tote's design is characterized by its ease of movement and adaptability. With a leather handle affixed to the back of the seat and casters hidden beneath the base, Tote can easily be moved from one space to another, perfect for establishing space for impromptu meetings, conferencing or a private nook for individual reflection.

Designed to work together in small groups or as part of larger lounge configurations, Tote has a contemporary aesthetic, offering adaptability, warmth and ease within high-traffic spaces such as lobbies, collaborative zones or leisure areas. By seamlessly blending the mobility of a traditional task chair with the scale and comfort of a lounge chair, Tote creates a unique, flexible solution for an assortment of applications. Tote is available with a caster base for movement or with glides, perfect for creating stationary spaces. It also features a decorative welt that surrounds the seat before it graphically cascades down the chair's back. Tote offers an advanced level of comfort and support, delivering tailored upholstery with functionality to corporate, hospitality and educational interiors.
