Create a Workplace Destination with Avalon Tables by DeskMakers

Versatile collection features collaborative surfaces and ample storage for today's office environments.

July 19, 2022 Commerce, CA - DeskMakers, a leading manufacturer of tables and workstations for commercial environments, recently introduced Avalon Tables, a collection of versatile workspace surface solutions designed to keep creative ideas flowing while providing a variety of storage configurations that keep workplace essentials organized.

"In designing Avalon Tables, we wanted to create destination pieces for impromptu gatherings, brainstorming sessions, and collaboration that make a statement while also blending seamlessly into existing spaces," said Cari Jacobs, director of product management for DeskMakers. "Avalon Tables also offer a wide range of storage configurations for additional functionality and flexibility."

Ideal for common areas, design libraries, touchdown spaces and more, Avalon Tables are available in a variety of configurations and finish options to suit a wide range of personal aesthetic preferences and interior design schemes. Configurations include buffet counter, design center, library bar, library station, locker bank, or paperwork center. Storage options include bookcases, lockers, drawers, cabinets, and cubby units. Single- and double-sided parsons tables can be added.

Avalon Tables are offered in two depths, two heights, and two lengths with 1-1/8" or 1-7/8" TFL or HPL panels and DeskMakers' standard 2MM PVC edge banding. Additional features include top over end panel construction and adjustable levelers. High dual stretchers in 12" or 16" are also available. Optional power modules, flush to the tabletop and available in a variety of configurations, provide easy to access power, USB charging, and data connections.
